Kalocsa – open for hybrid working

ABOUT ME

I consider myself as a highly **motivated** and committed person with a strong **passion** for **coding** and **solution-oriented** mindset.

This has led me to develop my skills **mainly** in **C#** and **Javascript**. I started coding with **Python** first, besides I am always **happy** and open to **learn** new technologies and techniques to **improve** and **deepen** my knowledge.

TECH STACK

C# (.NET)	PostgreSQL
React (JavaScript)	MSSQL
Python	
HTML	Git
CSS	GitHub

Docker
Microsoft Azure
ORM (Entity Framework)
JWT

Agile (Scrum)
OOP
SOLID

LANGAUGES

English
Hungarian

PROJECTS

ASP.NET Core Web API -

GitHub link

Developing web API with an ORM (Entity Framework Core) and SQL Server with every possible object relationship (1:1, 1:n, n:n)

Full-stack application -

GitHub link

Developing full-stack application with ASP.NET Core back end, ReactJS front end, MS SQL database
CI / CD pipelines with GitHub actions workflow, Docker Hub and Microsoft Azure

Portfolio website -

GitHub link

Portfolio website with ReactJS, Tailwind and Vite, deployed with Microsoft Azure Static Web Apps

WORK EXPERIENCE

Agriculture 2017 - 2022

Planning, coordination and administration of agricultural works, management of machinery fleet maintenance, used agricultural machinery salesment

EDUCATION

Codecool

Full-stack developer | February 2022 -

Szent István University

Horticultural Engineer Bsc | 2015 - 2018
